A two-part film series

MIAMI, Fla. (March 12, 2021) – Presented in collaboration with NHK WORLD-JAPAN, the Consulate-General of Japan in Miami is proud to announce *SAKE R-Evolution*, a two-part series of programs spotlighting Japanese sake. The virtual film screening will take place on March 12, and will be available through the consulate’s [website](#). Viewers are encouraged to complete a [survey](#) about their viewing experience once they have completed the films.

The virtual film screening is free and open to the public, and will feature two videos about sake, a type of Japanese liquor. The first video, titled “A Fever Brewing across the Globe,” takes viewers to countries in Africa, Europe, and the Americas to explore the spread of sake’s popularity internationally. The second video, “Heady Milestones in a New Era,” focuses specifically on Japan and France, countries known for their many connoisseurs of fine beverages. Watch as one Japanese brewer adopts French techniques in an attempt at creating the ultimate sake.
